

Living up to our expectations

"Murray Offroad Adventures is located in the semi arid landscapes of NW Victoria. We finalised Bus 4x4 for our 4WD Commuter after prolonged research including confirming that the conversion of a new vehicle did not void the new vehicle warranty.

The bus has lived up to our expectations. The interior upgrade with mine specification standard gives us the reassurance of a strong, safe, durable vehicle. The extras which includes safety equipment, storage, bull bar, snorkel, tow bar, curtains for light and heat and the built in TV/ DVD with connection to the latest communication allows facilities of an office while touring the bush"
